Agenda Item Bill 70
Your position on the matter Support
Representing Organization
Organization Youth Council
Do you wish to speak at the hearing? No

As a member of the Youth Council, I support the work that my predecessors have put in to create this bill. I ask that you do the same. Please respect the effort and time they have put in to protect themselves and their families. The bill was created to make common sense into law, to enforce something that protects all involved.

Written Testimony While some may not see the value of making such a small bill into law, this bill could save lives. It doesn't just protect the children, smoke in a car can be a visual distraction and can lead to cognitive and manual distractions. These distractions equal an average of about 12 seconds, or the equivalent of driving 525 feet (According to <https://www.dolmanlaw.com/smoking-driving-causes-distracted-driving-accidents-clearwater-fl/>)
